

INTRODUCTION

This value-added service is for individuals who have completed one of the COMPASS programs. There is opportunity to address concerns or questions about where each individual is positioned on their journey to personal success. COMPASS Extended will provide staff, resources, encouragement, structure and more time to work through the steps to successful completion of personalized action plans.

- **TOUCH BACK SESSIONS – Monday to Friday**

Each day you will describe the revisions to your action plans and work independently to use the tools to fill in the research gaps such as occupational & labour market information, expand your contact list, and compare schools and potential sources of employment.

- **PLAN / RESEARCH / PRACTICE – Monday to Friday**

You will identify the components of your career decision making process that need to be strengthened and documented.

You will review informational interview techniques, questions and practice scripts for making employer/employee calls.

You will have access to the equipment and professional staff on a daily basis for five days, offered once a month.
